

Angelina Souren MSc

Independent critical thinker and researcher with earth & life science background

For general inquiries only: +44 (0)77 2977 5974 | angelinasouren@gmail.com

SUMMARY

- Flexible, with a broad range of experiences and superb analytical skills
- Tends to contribute important insights that are not often instantly obvious
- Possesses awareness of cultural differences and other types of diversity
- Author of a book on the new eugenics (bioethics) and a book on otherisation
- Long-term target of sadistic stalking including extensive hacking
- **So now I can HELP YOU stop stalking before it starts**
- Dutch national (EU) who has lived and worked in the United States
- Often served as a catalyst and bridge-builder prior to her move to England
- Earth & life scientist with prior background in tourism & hospitality in bustling Amsterdam
- Has good legal insights (successful as a LIP) and knows a few things about rehabbing wild birds

SMARTERSCIENCE Owner since 1 October 1997

SmarterScience started out in Amsterdam, initially mainly supporting university scientists by offering them the opportunity to outsource some of their many tasks. Angelina accomplished this in conjunction with an international team of associates. She has worked with a range of universities such as the University of Twente, Utrecht University, Wageningen University and Arkansas State University (desk research, teaching, scientific editing), Arcadis (conducting interviews and writing articles as part of newsletter team), NATO C3 (presentation skills workshops) as well as with many other parties such as mining companies and publishers (desk research). Later, SmarterScience transitioned into course and book creation as well as advocacy and stalking prevention.

Angelina served as Associate Editor for the international newsletter of the US-based Geochemical Society (1998 – 2010) and as board member as well as editor-in-chief of the newsletter and scientific yearbook for the Environmental Chemistry (and Toxicology) Section of the Royal Netherlands Chemical Society (2001 – 2005). Angelina was also a board member and member of several committees of the NIMF foundation for women in science and technology in the Netherlands (1988 – 1993). In 2002, she was a panel member at NIMF's 15th anniversary symposium (3rd lustrum). She's a feminist.

University positions

University of Southampton/Plymouth – Independent desk research marine biogeochemistry (iron)
July 2003 – January 2006

VU University Amsterdam – Project manager earth science, part-time
September 1999 – January 2000

VU University Amsterdam – Information specialist mathematics, earth science and computer science, part-time
September 1998 – September 1999

University of Leiden – Guest researcher geobiochemistry

1998 (convened a conference session at the AGU Spring Meeting in Boston, with funding from Stichting Fonds Doctor Catharine van Tussenbroek foundation)

University of South Florida (State of Florida) – Graduate research assistant marine chemistry (rare earths)
January 1994 – January 1996

Education

STAT / NAM & APHA / Petrie Flom Center at Harvard Law School / My Life My Say / Medact | US/UK

Participant in online seminars, webinars and panel discussions related to COVID-19

See <https://www.statnews.com/> <https://nam.edu/> <https://www.apha.org/> <https://www.covid19conversations.org/> <https://www.mylifemysay.org.uk/> etc. This concerns topics like health disparities, the practicalities of reopening buildings after lock-downs (creating safe working conditions) and vaccine efficacy but also depression among young people and long Covid. The NAM/APHA sessions qualify for continuing education credits for health professionals.
2020 – present

HarvardX, Harvard Law School on EDX | US

Participant in law and bioethics courses

2014 – 2016

Taking the Lead | Portsmouth, UK

Graduate of NCFE-accredited advanced learners course in community leadership (TakePart context, sponsored by Portsmouth City Council)

2011

SENSE research school, Wageningen University, the Netherlands

Participant post-doc course "Speciation and Bioavailability"

September 2002

VU University Amsterdam in conjunction with Royal NIOZ | Amsterdam, the Netherlands

Extra diploma for marine science research

1993 (rare earth elements in the Southern Ocean, Antarctica; class-100 clean-lab hood, ion chromatography, ID-TIMS)

VU University Amsterdam | Amsterdam, the Netherlands

MSc earth sciences, with distinction

1993 (geology: geochemistry, petrology, isotope geology, structural geology, fieldwork in several countries)

Served on joint Studium Generale Committee of the science departments.

Netherlands School of Journalism (HMN) | Utrecht, the Netherlands

Certificates for two evening courses (PR, free-lance journalism)

1993

(The above is a selection.)

Retail etc.

Portsmouth, UK

Wrote an extensive business plan for developing empty buildings into mini malls offering a superior shopping experience and a minor community hub role.

Amsterdam, the Netherlands

Temped at various businesses, mainly while a student, at Dirk van den Broek supermarket, food and drinks kiosk at Amsterdam's central train station, order-taking at dairy company Melkunie, a garden centre etc. and law firm CliffordChance. Worked at Amsterdam Tourist Office and at a Holiday Inn De Boelelaan (front office) prior to enrolling at university.

Heerlen, the Netherlands

Worked school summers picking fruit and working at an office products store. Helped out at father's own retail business. Eldest of three daughters; mother passed away aged 42 after long illness (metastatised breast cancer).

(The above is a selection.)
